On June 9th, 2018, [March for the Ocean \(M4O\)](#) will celebrate the ocean on [World Oceans Day](#) weekend and defend our blue frontier. Join hundreds of citizens, scientists, and advocate who will march for a healthier ocean today!

Mass events include flotillas, marches, and rallies in the nation's capital and around the country in order to protect our human and wild communities and restore the blue in our red, white and blue. [Blue Frontier Campaign](#) and 50+partners will mobilize an inclusive and diverse constituency to ensure we have a healthy ocean and clean water for future generations. You can see M4O's complete listing of partners [here](#). We invite people of all walks of life to **#MarchForTheOcean**
<https://bluefront.org/projects-and-programs/marchfortheocean/>

For those of you who are familiar with Austin Texas our plan is to march down Congress avenue to capital and the **WFCRC** contingency we will be part of that march and will have our life sized bronze turtle sculpture by Michael Hall (the Salvador Dali of the bronze sculpture world) on display during the march.

IN PARTNERSHIP WITH

That evening it is proposed to have a screening of "Chasing Coral" and the New "[Blue Planet 2](#)" with a wine and hors d'oeuvres menu at a venue to be determined.

I have a particularly close connection with this event in that my great aunt and uncle were **both** governors of Texas and during [Ma and Pa Ferguson's](#) term of governorship they owned both sides of Congress avenue from the river to the capital. It just seems fitting that their descendant would march down Congress Avenue promoting ocean health and The World Federation for Coral Reef Conservation.

I would be grateful to have your participation and support for this event to promote our oceans health.....please let us hear from you and share this with all you know, thank you

ONE OCEAN....ONE PLANET
